

Rebels Against Oppression "End That Obstruction"

[Acceptance of the LGBT is increasing
So barriers to acceptance are weakening]

What it does it take repeal discrimination in the
Military against the LGBT?
Time is being wasted by a government study
To comfort cowards in the legislature
Where's the courage of those in charge for equality?

When I hear that government's plan to advance
Equality for the LGBT is delay then it's time to
For us to strengthen our civil rights movement
For the LGBT so with nonviolence we must
End that obstruction

Listen to the living documents of freedom
It's wrong to say their message is accomplished
Oppression is not freedom and opportunities
Are not made with this condition so there
Has to be job non-discrimination protection

When I hear that government's plan to advance
Equality for the LGBT is delay then it's time to
For us to strengthen our civil rights movement
For the LGBT so with nonviolence we must
End that obstruction
