There's nothing more correct than equality
Too many clergy have it wrong
LGBT rights must keep advancing
LGBT rights is superior to the opposition

So many states have degraded their
Constitution because intolerance won
But those amendments must be repealed
LGBT rights reigns over intolerance

Let the greatness of equality sweep over the
United States to tear down oppression
A referendum shall never be a tool of evil
There will and must be LGBT equality

So many states have degraded their
Constitution because intolerance won
But those amendments must be repealed
LGBT rights reigns over intolerance
