Islamophobia is showing it's power
They are religious and claim that there's
Freedom of religion and they claim that
They're not bigots but I know they are

Every religion has homophobes but every
Religion has supporters who support
Equality for LGBT people and it can be
Said that Islamophobes are also homophobes
Mosques are included in freedom of religion

Although there is tolerance in Christianity
Some believe that their scriptures are facts
About LGBT people but regardless no
Major religion is better or worse
Better or worse

Every religion has homophobes but every
Religion has supporters who support
Equality for LGBT people and it can be
Said that Islamophobes are also homophobes
Mosques are included in freedom of religion
