Demand every right or privilege that is denied
Because ageist governments have created
And Reagan despised youth rights

An artificial age must be fought to protect 18
No laws on 21
There's no logic about using that age for laws

The gambling age carries the injustice of 21
The drinking age carries the injustice of 21
18 must replace those minimum ages

An artificial age must be fought to protect 18
No laws on 21
There's no logic about using that for laws
