"Political Parties"

The decision must always lie with the person
Liberty is for all people
And the youth are not the exception

Two political parties endorse some tyranny
They mask their oppression with morals
But the youth shall never agree to that

One political party must advance for youth rights
The other may go the opposite way but their
Influence will be deminished
And a third party can fight all for progress

Two political parties endorse some tyranny
They mask their oppression with morals
But the youth shall never agree
