"Rights Of The Young"

Society is full of ageism along
With their ideology of nonfairness
But people must not assimilate to that
Into their ideology so challenge it

A young person is made up of freedom
It cannot be hindered by social conservatism
Whose people hide behind patriotism
Means intruding the rights of the young

It can be heard everywhere
The society made up of millions made of ageists
Hinderance of young people is not justified
Demand youth rights and don't back down

A young person is made up of freedom
It cannot be hindered by social conservatism
Whose people hide behind patriotism
Means intruding the rights of the young
