My fury over oppression from the federal government
Is like magma coming out because the legislature
keeps
Reinforcing the imposter age of majority of 21 but
The age of majority of 18 is glorious

Credit cards have been taken by over oppression
And so has the drinking age but there must be
Direct action so that if marijuana is legalized
The legal age to smoke it will be 18
That's how freedom must be
That's how freedom must be

Fury is the emotion in response to ageism so
If marijuana is legalized then compromise can't go
Too far to make sure that the real age of majority
Goes along with smoking marijuana

Credit cards have been taken over by oppression
And so has the drinking age but there must be
Direct action so that if marijuana is legalized
The legal age to smoke it will be 18
That's how freedom must be
That's how freedom must be
