

Rebels Against Oppression

"Those Rules Refuse Reality"

Visit "[Those Rules Refuse Reality](#)" on MotoLyrics.com

Usually reserved for times of crisis
Curfews are mainly used against youth
Because government believes the stereotypes
But night can't be denied because of age

Malls have created rules which discriminate
Against young people and government has
Done the same with driver licenses but
Don't accept this as those rules refuse sense

Ageism includes government requiring that
Young people get their licenses at court but
Those who justify are using stereotypes
Because there are many youth who drive good

Malls have created rules which discriminate
Against young people and government has
Done the same with driver licenses but
Don't accept this as those rules refuse sense
