Go to sleep my darling  
Go to sleep my dear  
It's late in the evening  
And sleepy time is drawing near

My mind is growing tired  
From December rains and winds  
So let's sleep by the fire of orange apple cinnamon

Yes, I know it's hard to wait so long  
And you will be waiting  
Oh, it's true  
The dead dog will reveal himself to you

The dead dog will save us all  
The dead dog will save us all  
The dead dog will save us all  
The dead dog will save us all
