Go watch the TV  
Tell me what you see  
All these bleeding wounds  
And rising seas, they don't mean much to me  
From the couch here, I plead apathy

The politicians, they don't speak for me  
A wreck's a wreck, atleast that's what I see  
And your faith you keep, is it dark now?  
It's waiting for me

So stop the bad dreams  
Stop the headaches  
And leave a little light  
Like when you say it's alright  
Like when you say it's alright  
Well, I guess it is

Go watch the TV  
Tell me what you see  
Any hope and love or realised dreams?  
That's what I want to see  
No more pain, no tears, no more grief

So stop the bad dreams  
Stop the headaches  
And leave a little light  
Like when you say it's alright  
Like when you say it's alright

So sing to me, I love it when  
You sing to me, I love it when  
You sing to me, I love it when  
You sing to me, I love it when  
You sing
