

Neverending White Lights

"A Little Piece"

Visit "[A Little Piece](#)" on MotoLyrics.com

She comes like a wave
Washing over my face
Lead me to the sun, to the sun
She breaks down the day
Into all possible lies, all possible... possible

You don't have to breathe
I will, I will breathe in for your love
You don't have to need
Come on, come on
Give a little... so give a little piece

Conversation makes you tired
Are you that lonely child, are you that lonely child?
Graduation makes you high
Are you that lonely child, are you that lonely child?

You don't have to breathe
I will, I will breathe in for your love
You don't have to need
Come on, come on
Give a little... so give a little piece

You don't have to breathe
I will, I will breathe in for your love
You don't have to need
Come on, come on
Give a little... so give a little piece
