I'm miss world
Somebody kill me
Kill me pills
No one cares my friends

I'm miss world
Watch me break
And watch me burn
No one is listening
My friends

I've made my bed I'll lie in it
I've made my bed I'll die in it
I've made my bed I'll lie in it
I've made my bed I'll die in it

Cute girls watch
When I eat ether
Suck me under
Maybe forever
My friends

Now I've made my bed I'll lie in it
I've made my bed I'll die in it
I've made my bed I'll cry in it
I've made my bed I'll lie in it
I've made my bed I'll lie in it
I've made my bed I'll die in it
I've made my bed I'll cry in it
I've made my bed I'll lie in it
My friend
