(feat. Mat Joly of Mobile)

In days ahead we find
We're strangers passing by
Was I wrong here, I wrong here?

I wasn't strong was I, strong was I?
Hey, what went wrong there?
We held on when they let go

Tonight we crawl to everyone
To save the things we never had there
They can't save a dying light
I had blamed everything on everyone
I had prayed for everything, for everyone

And we're only only

Faces are all blind
Strangers lost in time
Was I wrong here, I wrong here?
I didn't run did I, run did I?
And we're only only

And we're only wasting (time)
