Whatcha gonna tell my daughter when my body comes  
home  
Whatcha gonna tell her mother, her father was full  
grown  
He's been out slaughtering babies in someone else's  
daydream

If god is on my side  
Then god is on your side  
I murder you murder me matter of personal pride

If god is on your side

He must be mistaken  
He must have forsaken thee

Cause he watches you suffer believe  
He watches you grieve  
He sends his assassins  
They'll get you when your sleeping, weeping
