I wanted something new
I wanted something more
Thought it could be you
Now I'm not so sure

Media circumstances
We blew up all our chances
Now it's all said and done
The loss has just won

I bring you up, you bring me down
I'd better just not be around
I can see it could be this way forever, so I-

Will break free
From this mighty malady
I know that there's a remedy
All I need to do is break free
We'll break free
From this mighty malady
I know that there's a remedy
All I need to do is killing me
