[Spoken]
Since you like chicks, right. You must look at yourself
naked in the mirror all the time?

The first time I saw you girl,
The most beautiful girl in the whole wide world
Waiting to look
Over my way
Waiting to give you the
Time of day

(Ha!)

Girl I know you're the one for me
I just don't know how to make you see
That you're the one for me
and you're in my dreams
and, damn, it seems
that everywhere I go
I see your face
I even hear you voice
all over the place
And then I think of you
And what should I do?
I don't have a clue

I hope today
I see you again
I dunno why you left me for that lesbian
I dunno what you see in her any other way
And don't understand if you decided
To do me

(Ha!)

Girl I thought
I was treating you right
I took you out
almost every night
But that was the problem
Now I can see

You wanted some time away from me

Didn't get to go out to with your friends at night
Because I would always be with you
because I thought that was right
But now that you've left me
And you're all gone
I realize that I was wrong

Girl I thought
I was treating you right
I took you out
almost every night
But that was the problem
Now I can see
Cause you wanted some time away from me

And now I can't forget you
Cause I'm seeing you wherever I go
You'll always be in my heart
And no, and I don't know
There's no girl as good as you
Next to eyes so pretty and blue
And your smile so big and bright
I'll think of you girl every night

I hope someday
That you'll come back to me
Girl, you know
That I'm really sorry
I really am sad
That I detached you from all your friends
But girl if you want you can come back
With your new girlfriend

With your new girlfriend

I hope someday
That you'll come back to me
Girl, you know
That I'm really sorry
I really am sad
That I detached you from all your friends
But I just love you so much
Girl, why did you leave?
