

Never Heard Of It "Situations"

Visit "[Situations](#)" on MotoLyrics.com

I can't believe situations,
Got you in such desperation
Now I know what kept you so far away.

I'll take a welcome vacation,
From all the problems you brought down.
I know what made you change that day
If there's anything I know right now
It's that nothing's ever over.
All we really need to do right now
Is stop and work this out.

If there's anything I know right now,
It's that nothing's ever over.
All we really need to do right now
Is stop and work this out
stop and work this out.

And we fought so long
If you're right then it makes me wrong
All I know
The chance is gone
If it hurts why do you hang on
And we fought so long
If you're right then it makes me wrong
All I know (If there's anything I know right now)
the chance is gone
If it hurts why do you hang on (Is stop and work this
out)
If there's anything I know right now, (Right now)
It's that nothing's ever over. (Over)
All we really need to do right now
Is stop and work this out.

If there's anything I know right now,
It's that nothing's ever over.
All we really need to do right now

Is stop and work this out.

I can't believe these situations (I can't believe these situations)

Got you in desperation

I can't believe these situations

Probably never knew

I can't believe all these situations...
