Another miserable Day I didn't  
Sleep once again please tell me  
Why am I this way lately this is  
how it's been I've got so much  
On my mind I'm waiting for the  
Day to find the answers to my  
Troubles am I safe or am I in...

Shut the door on your way out  
Leave me empty let me shout  
Let me walkd own my own road  
Hide from the input run from doubt  
Dissolving clouds I'll think about  
This one i Know I can decode

And I don't know what to belive  
Reasons i know I can't say you  
Say them anyway and I don't  
Know what to belive  
(And now you're telling me,

What you want me to be  
And I don't want to be like you)

I light with myself evryday I'm  
Miserable when will it end I  
Search to find something to say  
I need some help I need a friend  
I feel I'm constantly behind I feel  
Left out I feel so blind but I want  
to be someone

I've always tried to do my best  
Although it seems impossible  
It's not a test I've always tried  
To be like you and throw my  
Insecurities away

The suns not out it'll be okay  
who are you anyway  
The suns not out and it'll be okay  
I'll be myself today
