It's hard to be your friend,
when I love you more than anything I know.
It's hard to let you go,
when I'm hanging onto every word you say

I am weak,
I'm in too deep,
one hit and I'll break into million piece.
Promise to me,
you'll stay close to me.
When you are gone my heart aches with every beat

I am all confused,
cuz the things I should feel ain't what I'm feeling.
I only hurt myself by hoping one day you will feel the
same

I am weak,
I'm in too deep,
one hit and I'll break into million piece.
Promise to me,
you'll stay close to me.
When you are gone my heart aches with every beat.
