Another loaded question
Another broken answer
Still I feel this anyway
Another soft confession
Guaranteed disaster
Maybe we'll get through today

Switch the blame to make me feel good
Make yourself look better
Another accusation
Bring me down
Assume the worst and lash out
Connected to your blackouts
Maybe next time I'll be around

I can't believe you wouldn't stay
How sad, he watched you walk away
Open mind
Such a waste
Place the blame
I'll fight someday

Negative vibrations
Unlimited temptation
Jealousy is only getting worse
A conscious dream forever
I used to dream, whatever
Maybe overcome all that you learn

Switch the blame make you feel good
Make yourself look better
Another accusation
Bring me down
Assume the worst and lash out
Connected to your black outs
Maybe next time I'll be around

I can't believe you wouldn't stay
How sad, he watched you walk away
Open mind is such a waste
Place the blame
I'll fight someday

I compromise sometimes
But I really don't care and I really don't mind it
You fuck me up sometimes
But you really don't care and you really don't mind it

I can't believe you wouldn't stay
I can't watch you walk away
I can't believe you wouldn't stay
How sad, he watched you walk away
I can't believe you wouldn't stay
How sad, he watched you walk away
Open mind is such a waste
Place the blame
I'll fight someday
