I will show my face, and I will remember.

Oh I will never forget.

I cant help but remember and regret. My veins are filled with desire. I'm leaving nothing behind.

My head is held high. There's some things I cant let go. But they will make me grow.

Its these moments that will always sink in.

I will surface to show the face that I've been hiding. (I'm the enemy, so bear with me)

I'm the enemy, so bear with me. (I am not to be left alone.)

I'm the enemy, so bear with me.

Its hard to deal with the fact that I'm wrong. Mistakes have been made all along.

Reduced to ash. Watch as they begin to fade away. There is a constant reminder that I have grown. My callous hands are shown. There is a constant reminder that I have grown.

My scars will always hold me.

Can I reach higher ground? I'll analyze my decisions. I will decide.

There is a constant reminder that I have grown. My callous hands are shown. There is a constant reminder that I have grown. My scars will always hold me.

But there are some things that I cannot let go, but they will make me grow. Here are my callous hands to show. I'm leaving nothing behind. Here are my callous hands to show.

My scars will always hold me.
