Nothing left to lose,
I'll see you when you come,
We'll talk it over then.
The calm before the storm,
I never was expecting you until it passes.

Night falls on my tears, still know where it made
something I believe.

I know the rain is where you shine,
but nothing can compare to when the wind is in your
hair.
Now we're each with something new,
it drives me crazy you don't know it's all about you.

There's someone standing there,
beside you it's not me
I wonder do you care?
Falling gracefully, you've pushed me once too far,
now here you've come to save me.

Eyes wide open, you see nothing, YOU'RE the one
needs saving.

I will drive through the night,
knowing that you're there,
a thousand miles anywhere.
Like chasing all the stars,
it drives me crazy you don't know it's all about you.

Don't move...
You'll wake me.
My dreams...
So happy here.
We are entangled,
making like we ought to be...

Silence scares me.
The air in here gets so heavy.
Rising heart, choking on what's really meant to be
you and me.

I know the rain is where you shine,
but nothing can compare to when the wind is in your
hair.

Now we're each with something new,
it drives me crazy you don't know it's all about you.

It's all about you...
