In this neon black gloom I still see her face.
She comes to me bringing darkest hour,
I am forlorn.
The pain is reborn.

You are forever in my heart you never died.
You are forever I still wonder where you are.

I know you're dreaming,
I know you're at peace.
I'll meet you in the dreamtime.
Whenever you call me I'll go under,
I'll swim through you.

You are forever in my heart you never died.
You are forever I still wonder where you are.

I know you're dreaming neon black.
