

Nevermore "Inside Four Walls"

Visit "[Inside Four Walls](#)" on MotoLyrics.com

Inside four walls I live my life, doesn't matter what I've done

The government's always right

They tell us what to be, they tell us what to believe

They're wrong, my friend is gone

Inside four walls

Inside four walls

The day they took away my friend

Injustice made its mark

All the political whores only come out after dark

If anyone knows the way

Build me a bridge so I won't fall astray

Inside four walls

Inside four walls my friend

They took away your freedom

And the pigs still preach their lies

The system falls apart

The pigs still laugh feeding off our broken lives

Can anyone tell me why

Some violent criminals do far less time?

Inside four walls

Inside four walls my friend

They took away your freedom

And the pigs still preach their lies

Inside four walls

Inside four walls my friend

They took away your freedom

And the pigs still preach their lies

Inside four walls

Inside four walls my friend

They took away your freedom

But they'll never take your mind
