I taste the tear to numb the fear
Trapped by the source of my infection
I play the martyr
Submerged in this pool
The corporation used me
Like they brainwashed you

{Chorus}:

Life is seen so cold and benign
I don't want to be saved
I'm next in line to die

Labeled sick but I'm just a man
Everyone I love has left me for dead
This void illusion I suffer for
They made me their God
And I am so much more than you

{Chorus}

I don't want to be saved
I'm next in line

I taste the fear to numb the tear
Trapped by the source of my infection
Life is seen through heroin dreaming
Cold and benign
I don't want to be saved
I'm next in line to die
I don't want to be saved
I'm next in line and
I don't want to be saved

{2x}

I'm a dead man, I'm a sick man
I'm the pilot of my destruction

The pilot of my destruction
