To see the actor without tears
Dark rivers carve the years between the lines of self
control
In my psychotic karmic fear, I own your tears anyway
And I am you and we are not afraid

And we won't be here for long
The heart collector sings his song that's slowly boiling
over

Nevermore to feel the pain
The heart collector sang
And I won't be feeling hollow for so long
Nevermore to feel the pain
The words fall out like fire
Believe when you can't believe anymore

The stage is empty now
The hope we hold and cannot allow
The corrupt eclectic takes his fatal bow

And we won't be here for long
The heart collector sings his song again

Nevermore to feel the pain
The heart collector sang
And I won't be feeling hollow for so long
Nevermore to feel the pain
The words fall out like fire
Believe when you can't believe anymore

Nevermore to feel the pain
The heart collector sang
And I won't be feeling hollow for so long
Nevermore to feel the pain
The words fall out like fire
Believe when you can't believe anymore
