And I just fell so deep,
Close my eyes and count to three,
Iâ'm losing sleep more than youâ'd ever know,
Cuz I wanna hear you say you wanna stay the night,
And rescue me, come on come on, letâ's get this right

And she came on; Iâ've never seen such beauty in a
dress,
And maybe sheâ's the one for me; Iâ'm starting to
confess,
Iâ've gotta work things out, Gotta know for sure,
Sheâ's getting to my head,
Sheâ's all I need and everything I never could forget

And I just fell so deep,
Close my eyes and count to three,
Iâ'm losing sleep more than youâ'd ever know,
Cuz I wanna hear you say you wanna stay the night,
And rescue me, come on come on, letâ's get this right

And I know, sheâ's got it figured out,
But I know we find ourselves in situations,
And oh I remember her face, and those words she
spoke to me,

And everything she ever said is coming back so easily

And I just fell so deep,
Close my eyes and count to three,
Iâ'm losing sleep more than youâ'd ever know,
Cuz I wanna hear you say you wanna stay the night,
And rescue me, come on come on, letâ's get this right

And Iâ'm waiting, Iâ'm waiting for you
Iâ'm waiting, Iâ'm waiting for you

And I just fell so deep,
Close my eyes and count to three,
Iâ'm losing sleep more than youâ'd ever know,
Cuz I wanna hear you say you wanna stay the night,
And rescue me, come on come on, letâ's get this right

And I just fell so deep,
Close my eyes and count to three,
Iâ€™m losing sleep more than youâ€™d ever know,
Cuz I wanna hear you say you wanna stay the night,
And rescue me, come on come on, letâ€™s get this right
