It was a sunday,
That was two years ago,
This monday was the day she broke my heart,
And I broke down and she walked out the door,
It was last weekend,
We were talking oh so sweet,
And thinking how our lives would all play out,
And I'd be yours and you'd be mine forever

But nothing lasts forever, that's what they all say

We used to spend our nights together,
I never wanna see your face again,
We used to think that this would last forever,
But did you ever think that we could end,
Maybe we were destined from the start,
To fall in love and fall apart,
You tell me that you're over me but I'm so over you,
We used to be in love and now I hate you

She was a bitch right from the start,
Don't know what I saw in her,
Cause stupid little shits all I ever heard,
Why did I even bother I should have never called her
back,
Cause everything I had was all she ever lacked,
As a matter of fact I'm over it

We used to spend our nights together,
I never wanna see your face again,
We used to think that this would last forever,
But did you ever think that we could end,
Maybe we were destined from the start,
To fall in love and fall apart,
You tell me that you're over me but I'm so over you,
We used to be in love and now I hate you

I should have saw it from the start,
You were bound to break my heart in two,
I should have left you standing wondering,
Is this really happening too,

But the truth is that I'm so over you

We used to spend our nights together,
I never wanna see your face again,
We used to think that this would last forever,
But did you ever think that we could end,
Maybe we were destined from the start,
To fall in love and fall apart,
You tell me that you're over me but I'm so over you,
We used to be in love and now I hate you,
We used to be in love and now I hate you
