"Hold On"

Visit "[Hold On](#)" on MotoLyrics.com

I am the one who saw you there
You are the one who always needs me dear
Forget the things that I can't do
The world will come when I find you
Just hold on

So now your livin life like Jesus said
When he was humbled to his knees
To breathe the life back in your soul you'll see
Your time will come to rescue me
So hold on

You were the one inside my head
Oh lord I turned to you
When all you see is life or death
But somehow we'll breakthrough
Just hold on

So take me back to times when we let go
When you lost track of what you need
To feel as high as you have done before
Then you must learn to let this be
So hold on

You were the one inside my head
Oh lord I turned to you
When all you see is life or death
But somehow we'll breakthrough
You give your life so I find mine
But I know I've failed you
For all the miles that I have walked
But someday I'll find you
Just hold on (x2)
