I hope that you love me (I hope that you love me)  
And I hope that you trust me (I hope that you trust me)  
Baby don't you leave me  
I'm feeling so Abanded (Abanded yeah)

After all the things that I did for you I thought I had your  
trust (trust)  
But when you seen me on MTV all you wanna do is fuss  
You're asking 'bout her, but I don't wanna talk about  
her  
Cuz all I ever wanted was you  
You said that I (lie)

To you all the time (but why)  
When I give you everything I can ever since this  
relationship began  
Back and forth (we go)  
I can take this (no more)  
Girl can we take it back to when we were in love  
So I won't have to wonder

I hope that you love me (I hope that you love me)  
And I hope that you trust me (I hope that you trust me)  
Baby don't you leave me  
I'm feeling so Abanded (Abanded yeah)
