Gabe
"And I Go Pow"

Everyday in everyway
Everybody knows I'm out there
On the day you weren't around all I want is to go pow

It's ok I know what I am
Please try understanding all around
I don't care how much I've read
Please try understanding I'm out of my head
I'm out of my head

Maybe once or maybe twice
I have ever been so nice
And I see you wonder how
I could have a 2 shot now

And I go pow and fall on my face
I don't understand what's going 'round
I don't care how much I've bled
Please try understanding I'm out of my head
I'm out of my head

[solo]

Anytime and anywhere
Everybody knows I'm out there
I don't mind so long my pride
Come on look into my eyes

If you want now to go and find me
Please try understanding all around
I don't care how much I'm dead
Please try understanding I'm out of my head
I'm out of my head
