Written By: Gabe Lustman

Memorized I cannot describe
The feeling overtaking me now (now, now)
Hypnotized I'm in a different state of my mind (mind,
mind)

It's almost magical
The way she rocks her body straight to the beat
(straight to the beat)
So incredible she's the baddest looking chick on the
scene (chick on the
scene)

Ya know I'm posted at the bar just tryna be cool
But this girl she keeps on looking my way
She's inching slowly cuz she's tryna be smooth
Even though she knows I'm feelin' her too (oo)

Chemistry is what we're feeling right now
And I think it's time that I make a move (it's time to
make a move)
Approach her slowly as I ask for her hand
It's almost like the Dance Floor Is A Star

Baby we gonna shine, shine, shine
Even if it takes the rest of the night
The Dance Floor Is A Star
And we gonna find, find, find
The feeling we never thought we could find
The Dance Floor Is A Star

Baby we gonna shine, shine, shine

Even if it takes the rest of the night
The Dance Floor Is A Star
And we gonna find, find, find
The feeling we never thought we could find
The Dance Floor Is A Star

First I start to pull her closer

As the light is slowly beginning to fade (fade, fade)
Then she puts her head on my shoulder
As we dance to a slow jam

Chemistry is what we're feeling right now
And I think it's time that I make a move (it's time to
make a move)
Caress her slowly as I'm holding her hips
It's almost like the Dance Floor Is A Star

Baby we gonna shine, shine, shine
Even if it takes the rest of the night
The Dance Floor Is A Star
And we gonna find, find, find
The feeling we never thought we could find
The Dance Floor Is A Star

Baby we gonna shine, shine, shine
Even if it takes the rest of the night
The Dance Floor Is A Star
And we gonna find, find, find
The feeling we never thought we could find
The Dance Floor Is A Star
