dancin on me she really want me
dropping it low she really on me
the way that she move I can tell that she's a freak
I don't really know what she's doing to me
but I know what to do when I get her in my room
she gon wanna call me her boo but im cool
I don't get down like that I knock em off once and I
send em right back
yeah I send em right back

got her singing like me in the high falsettos
nothing on but a sexy pair of stilettos
no casino but we going all in
give it to her good make her run and tell a friend like
I never knew I could do
all the things that I did
when I was in bed with you
you wanna come back for more
but baby that door is closed
and now she trippin cuz she cant
get to me without going through 5 people
