help me a find cure  
please just find cure  
she's my medicine  
im so love sick without her  
(can you help me) doctor  
saw my doctor yesterday  
cause theres something wrong with my body/  
I think I need an X-Ray  
cuz this time the break is serious  
I sat down at that table  
doc Im in so much pain  
Im waiting on him to say  
exactly what went wrong  
what went wrong  
is when she left  
she took my heart  
It aint got nothing left  
It hurts so bad  
I cant sleep  
Do anything without her love  
help me a find cure  
please just find cure  
she's my medicine  
im so love sick without her  
(can you help me) doctor  
no broken bones but I swear  
that every part of me hurts  
he said that I should be fine  
and that it should heal in time  
but theres no pill for heartbreak  
internal wounds you cant see  
I think I need a different doctor  
to prescribe me the remedy  
help me a find cure  
please just find cure  
she's my medicine  
im so love sick without her  
(can you help me) doctor  
I don't wanna believe  
that she don't wanna be with me  
so Imma stay right here  
until she pulls out my IV

I don't think she knows  
what this is doing to me  
I don't think she cares if it ends up killing me  
help me a find cure  
please just find cure  
she's my medicine  
im so love sick without her  
(can you help me) doctor
