She aint looking for someone to tie her down
but what she's looking for is someone to lay her down
and I can tell ya that I done it once before
and she always comes back for more
she knows what she's looking for
theres no shame in her game
someone who can break her off
anytime she's wants woah

If this right heres a drink then
girl just sip it up
bring that kitty over here
and watch as I lick it up
I know how to please ya no doubt about it but
sometimes i like to tease ya first so lemme do it
she knows what she's looking for
theres no shame in her game
someone who can break her off
anytime she's wants woah
