### "Everybody Loves You"

Visit "[Everybody Loves You](#)" on MotoLyrics.com

On the way out I could see  
Ugly little me  
And I'll say that I am crushed as crush could be  
You messed me up you see

But if you loved it and felt it  
You carry us you do  
I could never say it but it's true  
Everybody loves you

And I could do a lot I always did and I know you did too  
Say goodbye and I'll go and now I know  
I hope you're feeling good

But I'm no liar or crier but I know when it's through  
I could never say it but it's true  
Everybody loves you

Why'd you go now where'd you go I think I'll never know  
If you go now I can't take it but I think that I can say

You want it, and felt it you carry us you do  
I could never say it but it's true  
Everybody loves you  
Everybody loves you  
Everybody loves you
