baby wasp wassup
talk to me for a min
whats wrong with us
tell me girl and ill fix it
it kills me to see us like this
when you grab your bag and all that shit
im still your man so im gonna let you know
that I still love you one time before you go
if this is done then put it on the table right now
I put my pride to the side and I ask you once more
do you even remember what were fighting for
I don't wanna fight no more fight no more
tell me whats the use
cuz theres no good excuse
don't wanna fight no more fight so can we just stop it
I just wanna love
I just wanna love
I don't wanna fight no more fight so can we just stop it
we argue on the daily
we make up every night
i feel like it brings us closer
but that don't make it right
im a good man
and a good girls hard to find
can we stop this arguing
and wasting all our time
I put my pride to the side and I ask you once more
do you even remember what were fighting for
I don't wanna fight no more fight no more
tell me whats the use
cuz theres no good excuse
don't wanna fight no more fight so can we just stop it
I just wanna love
I just wanna love
I don't wanna fight no more fight so can we just stop it
