Intro:

If I could touch a star  
Then baby you'd be able to feel it  
If I could kiss the sky  
Then babyÂ

Hook:

Tonight  
Will be  
The best kiss of your life  
Tonight  
Will be  
Our chance to fly  
You make me feel  
Like I've never felt  
And when I'm around you  
I begin to flyÂ

Verse 1:

Tonight it looks like a full moon  
The stars are just starting to shine  
The air it feels so refreshing  
Just in the mood for a kiss  
The wind is loving your hair girl  
And I'm loving your lips  
Let's go baby were about to take off  
Cuz baby/Tonight

Hook:

Tonight  
Will be  
The best ride of your life  
Tonight  
Will be  
Our chance to fly  
You make me feel  
Like I've never felt  
And when I'm around you  
I begin to flyÂ

Verse 2:

Woops there goes a cloud  
I can't believe they're so close to me  
And I never been this high  
A plane couldn't take me

Where your love can  
Where your kisses can  
I promise we will  
Make it to the sun  
As we light up the world
