FORCE FIELD:

Written By: Gabe Lustman

Damn.. It's like there's a wall up.. that I just can't break

(Ah, ahh ahh) Force Field, Force Field

(Ah, ahh ahh) Force Field, Force Field

I try but I can't break it's like I'm up against a Force
Field (Force Field)

You're closed off I'm far to late it's like I'm up against a
Force Field

(Force Field)

How do you expect me to decide I chose (you I want
you) do I move on

with my life

Feels like the walls are closing in oh no

Why would you put me in his shoes

When you know I treat you better than he do

He don't even understand you

Like I do, Like I do

Why would you put me in his shoes (Why would you put
me in his
shoes)

When you know I treat you better than he do (know I
treat you better

than he do)

He don't even understand you

Like I do, Like I do

I try but I can't break it's like I'm up against a Force
Field (Force Field)

You're closed off I'm far to late it's like I'm up against a
Force Field

(Force Field)

Can't move on, Feelings too strong I shouldn't pay for
his mistakes

(ahh)

How do I get through to you with this Force Field in my
way

How do I get through to you with this Force Field in my

way (In my way)
I tried so many times my mind wanna go but my heart
wanna stay
(wanna stay)
I can't breathe without you (without you)
Imagine my life without you (without you)
Feels like the walls are closing in oh no

Why would you put me in his shoes
When you know I treat you better than he do
He don't even understand you
Like I do, Like I do
Why would you put me in his shoes (Why would you put
me in his
shoes)
When you know I treat you better than he do (know I
treat you better
than he do)
He don't even understand you
Like I do, Like I do

I try but I can't break it's like I'm up against a Force
Field (Force Field)
You're closed off I'm far to late it's like I'm up against a
Force Field
(Force Field)
Can't move on, Feelings too strong I shouldn't pay for
his mistakes
(ahh)
How do I get through to you with this Force Field in my
way

(Ah, ahh ahh) Force Field, Force Field
(Ah, ahh ahh) Force Field, Force Field
