tell me is it a crush
cuz when ur around I know that
I get a rush
there's no controlling it I cant get enough
of your touch tell me do you feel it cuz baby I feel it
I get a rush

never felt this way before
you keep me coming back for more
this here I cant ignore
how did this happen to me
and how could this be
that you and me
call each other just friends
but we both know that we're still looking for more
im asking you for sure
what do you need
oo tell me baby
do you want a bad romance
would you wanna take the chance
let me take you by your hand

you could be my only lover
I would touch you like no other
make you feel all good inside
if we fight girl that's alright

we could take this anywhere
let em hate girl don't be scared
never do wrong once I swear
I swear cuz I'm here

tell me is it a crush
cuz when ur around I know that
I get a rush
there's no controlling it I cant get enough
of your touch tell me do you feel it cuz baby I feel it
I get a rush

If what your saying is half way close to truth
then I do
feel exactly the same way that you do

Ive tried to hide these feelings I have for you
but I cant
keep on pretending that it's not there

I could be my only lover
You would touch you like no other
I'll make you feel all good inside
if we fight boy that's alright

we could take this anywhere
let em hate boy don't be scared
never do wrong once I swear
I swear cuz I'm here

tell me is it a crush
cuz when ur around I know that
I get a rush
there's no controlling it I cant get enough
of your touch tell me do you feel it cuz baby I feel it
I get a rush

the time is passing we won't get any younger so we
might as well do this

spent a lifetime without you now I cant wait any longer
and as I feel the
touch of your lips

I feel the rush
cuz when you're around I know its not just a crush
there's no controlling it I cant get enough
of your touch tell me do you feel it cuz baby I feel it

tell me is it a crush
cuz when ur around I know that
I get a rush
there's no controlling it I cant get enough
of your touch tell me do you feel it cuz baby I feel it
I get a rush
