One life
One
One

One life
To live it girl, you know that it was so right
For us to be together but it's alright
Cause we're not the controllers of love
Of the love
And I remember
How we used to spend all day and night together
When I look into your eyes I see forever
But I guess he needed you more than me, than me

Baby, it's been too many nights that I wanna cry
Now that you're gone away from me
I didn't know love was 'pposed to be like this
But I know that there's a reason

And baby, it's been too many nights I wanna cry
Since you've been gone it ain't the same
It wasn't my choice to make you stay
So I'm guessin it's true when they say that love is pain

Can't breathe, can't eat, can't sleep
Cause you're a part of me
No lights on and no heat, that's how it seems to be
And I think I'm going crazy
I've lost that special lady and I don't know what to do

I'm thinkin 'bout doin something crazy (hey baby)
Just could get back close to my baby
Because a love is all I have
Please send her back cause I can't go another day

Baby, it's been too many nights that I wanna cry
Now that you're gone away from me
I didn't know love was 'pposed to be like this
But I know that there's a reason

And baby, it's been too many nights I wanna cry

Since you've been gone it ain't the same
It wasn't my choice to make you stay
So I'm guessin it's true when they say that love is pain

Sometimes I try to move on (I try to move on)
But something's telling me to hold on
It's telling me to face the fact that you're gone
But I want him to bring you back, cause I've been wrong

Reminiscing 'bout the love we shared
And I don't wanna love nobody else
Because there ain't no replacing my heart
And now I know that people come and go
And there ain't no more bringing you back

Baby, it's been too many nights that I wanna cry
Now that you're gone away from me
I didn't know love was 'pposed to be like this
But I know that there's a reason

And baby, it's been too many nights I wanna cry
Since you've been gone it ain't the same
It wasn't my choice to make you stay
So I'm guessin it's true when they say that love is pain

Love, love
Love, love
