Yeah  
I hope your ready  
Just have a feeling about tonight  
It's almost magical ah

The way you rocked that dress had me like (damn my  
baby's looking good)  
Left the club we couldn't wait  
We're on our way to the crib  
The way you kissin on my neck (got me weavin down  
the freeway)  
I think I'm bout to crash this car should I pull off on the  
shoulder

The minute we pulled up we took it (straight into the  
bedroom)  
Clothes came off I ripped them off  
With my teeth

Gonna get real freaky (cuz I know ur feelin hot)  
Picked you up against the wall  
laid you straight down on the bed

This love sex session tonight I'm gonna give it ya  
Working the positions  
Never felt like this before  
Cuz tonight I'll put it down  
No one else to hear the sounds  
Of this love sex session  
Our love sex session

Love sex session  
Tonight Im gonna give it to ya  
Sleep sleep baby  
Never felt like this before  
Cuz tonight is something special  
I know just what you need  
This love sex session  
Will put you fast asleep

Maybe it's the way you kiss my neck (kiss my neck)  
Or could it be the way I'm lickin on your chest (on your chest)  
Your in a certain mood and girl I know just what you need  
Tonight Im bout to put you on something you never dreamed of

Ah  
I know you feel me baby  
Feels good right  
Ah ohh

Love Love Love ah x2

Tonight I'll give you all my love

This love sex session tonight I'm gonna give it ya  
Working the positions  
Never felt like this before  
Cuz tonight I'll put it down  
No one else to hear the sounds  
Of this love sex session  
Our love sex session

Love sex session  
Tonight Im gonna give it to ya  
Sleep sleep baby  
Never felt like this before  
Cuz tonight is something special  
I know just what you need  
This love sex session  
Will put you fast asleep
