Written By: Gabe Lustman

I seen ya got a new dude
from looking at your Facebook
I know that he's a playa
cuz I seen his ass in the club

you thinkn that he loves you
he only texts you when he wants to
and he got a bunch of side chicks
but lets get back to the basics

fuck that new dude that you ran right to
let's see if he deals with the same shit that you put me
through
I said fuck that new dude thats been in your bed
cuz when he's in you I know Im in your head

don't say im a liar say im a liar
when you hear this shit right here
tell me is he there or if he even cares
about you the way that I doo

don't say im a liar say im a liar
when you hear this shit right here
tell me is he there or if he even cares
about you the way that I doo

oh woah
oh woah

I put down the bottle
picked up a pen and paper
not knowing what would come out
but knowing that it'd be hot

Im hoping that you hear this
I didn't get a last kiss
Sorry it didn't work out
Seems like you don't give a damn

fuck that new dude that you ran right to
let's see if he deals with the same shit that you put me
through
I said fuck that new dude thats been in your bed
cuz when he's in you I know Im in your head

don't say im a liar say im a liar
when you hear this shit right here
tell me is he there or if he even cares
about you the way that I doo

don't say im a liar say im a liar
when you hear this shit right here
tell me is he there or if he even cares
about you the way that I doo

oh woah
oh woah

this tops my list the hardest breakup ever
