I've been thinking about you
To know trying to get you off of my mind
I've tried and every time I try I fail
To make any progress

My mind's eye only sees you
And I swear I don't swear
But I promise it's true
You keep my mind so occupied
In a busy yet beautiful way

Hey well I met you in the summertime
And I never had a summer better
Than the one I met you in girl
Oh yeah
I met you in the summertime
Do you keep me in mind?
Cause you're always on mine

You know how I know she's got style
It's in the way she walks
And it's in the way she smiles
It's in the way she's rocking fits
Ahead of their time
All of the time

One day I'm gonna let go
Let it out
Just to love til my feelings show
I'm giving you my heart
Tie it with a bow
You never had to try
You had me at hello

Hey, well I met you in the summertime
And I never had a summer better than
The one I met you in girl
Oh yeah
I met you in the summertime
Do you keep me in mind?
Cause you're always on mine

All these thoughts I have of you are
Wonderful in every regard
So when the world's being a question mark
I can go to a place that I know is for sure

I met you in the summertime
And I never had a summer better
Than the one I met you in girl
Oh yeah
I met you in the summertime
Do you keep me in mind?
Cause you're always on mine
