when she comes around  
she brings sunlight to a cloudy day  
when i kissed her lips  
she put a smile right on my face  
ive been shot by cupid  
got me feelin stupid  
could it be ive fallen for this girl  
my mind running crazy  
heart beat different lately  
I never felt this way before  
these are symptoms of love love  
I don't need a doctor  
don't need a prescription  
cuz by the description  
these are symptoms of love love  
if there was a way  
I could get this girl to understand  
Id cut to the chase  
and let her know jus how I feel cuz  
ive been shot by cupid  
got me feelin stupid  
could it be ive fallen for this girl  
my mind running crazy  
heart beat different lately  
I never felt this way before  
these are symptoms of love love  
I don't need a doctor  
don't need a prescription  
cuz by the description  
these are symptoms of love love
