You and your parrot  
Walk around like you're demigods  
You and your parrot  
When you're together I'm all alone  
I am all alone (yeah)

Forget about it  
You get together and laugh at me  
Forget about it  
Gossiping on the telephone  
I am all alone

Will anybody take a chance for me today?  
We'll throw them in a well and  
Laugh and watch them float away

Will anybody take a chance for me today?  
We'll throw them in the ocean  
Laugh and watch them float away

[Repeat First Verse]

Now I'm gonna be all alone  
Now I'm gonna be all alone  
I am all alone
