I fall apart when you say hello
At the beginning of your video
So nice of you to come by my place
On your trip through this whole cyberspace

I know that this is crazy
So I just keep it to myself
Tell me, who can I tell?

I got a crush
On a YouTube star
It's a little bit much
Cause everybody knows who you are
I got a crush
On a YouTube star
And I won't get far
But I got a crush
On a YouTube star

I check everyday
Subscribed to your page
Checking for updates
Well ok, I guess there's none today

Well that's just fine
I'm sure you're busy all the time
With all of the Youtube things on your mind

I know that this is crazy
So I just keep it to myself
Tell me, whom gonna tell?

I got a crush
On a YouTube star
It's a little bit much
Cause everybody knows who you are
I got a crush
On a YouTube star
And I won't get far
But I got a crush
On a YouTube star

I know you think it's silly
But yes I think I've really found someone
Found her with a search engine
My Y-O-U-T-U-B-E Star

I got a crush
On a YouTube star
It's a little bit much
Cause everybody knows who you are
I got a crush
On a YouTube star
And I won't get far
But I got a crush...

I got a crush
On a YouTube star
It's a little bit much
Cause everybody knows who you are
I got a crush
On a YouTube star
But I won't get far
Cause I got a crush
On a YouTube star
