It started with your hips
So i moved up to your lips
To take a chance
Ask for a dance
Cause your the cutest thing on this side of the world

We call our homes
Yet i feel so all alone
Half of the time
We gotta live with what we got
And I got nothing
So I pray you take my hand
So we can conjour up something rad

And you could move on with your whole life
Just like you do
Just like you shoo be doo doo doo
But you could make everything alright
And I want you too
Because ever since the first dance
All I thought about was lovin' on you
So I move to the dancefloor
With instincts and nothing more
I had ants in my pants
I did the boogie dance
And there was nothing to do but laugh

So i took another leap
Hoping to sweep you off your feet
I said "Baby, maybe, we could bust this
joint and see if my place is open to chill"

You could move on with your whole life
Just like you do
Just like you shoo be doo doo doo
But you could make everything alright
And i want you too
Because ever since the first dance
All i thought about was lovin' on you
