I like you.  
Girl you don't got nothin to prove to me  
I know that times have been rough  
For the both of us  
But I'll pray for a change  
You see this world has lots to offer  
But in time it will go dark  
And if this love is what we say it is  
I'm sure we will go far  
And with a girl as sweet as you  
There's not much else I can do  
But fall for you  
You know that I'm a wreck  
And you know I can't breathe  
At the edge of my seat with each word  
As the months turn into years  
Just know that I will wait here for you

Cause I prayed for a change  
You see this world has lots to offer  
But in time it will go dark  
And if this love is what we say it is  
I'm sure we will go far  
And with a girl as sweet as you  
There's not much else I can do  
But fall for you  
for you (X3)  
This world has lots to offer  
But in time it will go dark  
And if this love is what we say it is  
I'm sure we will go far  
And with a girl as sweet as you  
There's not much else I can do  
But fall for you
