I got a guilty fever feelin' buzzed
Thinking bout your love
I got to see you babe for I think I might give up
I wanna shake it, I wanna shake things up

You know I want you baby, I wanna shake it up.
You got your foreign kisses & sugar drips
From the sweetness of your tongue
You got me burning babe and I think I'm going numb

You've got me shakin' baby, you make me shake it
up
Oh I've gotta, I got to quit this quick you make me
shake it up.

I've got a guilty fever to much love
Babe you got me high

I couldn't quit you mama I feel I'm gonna die
You make me crazy baby you got me so shook up
Oh I've gotta, I gotta quit you baby you make me
shake it up

I gotta quit you baby you make me shake it up yeah.
Oh I gotta get away
I've got to lose your love baby yeah
Oh you got me runnin' crazy
I got to get away yeah.
